

**City of New York
Parks & Recreation**

**Citywide Job Vacancy Notice
Job ID № 287104**

Civil Service Title: Computer Associate (Software)
Title Code No: 13631
Office Title: Application Developer

Level: I
Salary: \$65,000 - \$72,000
Work Location: Olmsted Center, Queens
Number of Positions: 2

MAJOR RESPONSIBILITIES

- Under general direction of the Director of Systems & Analysis, with latitude for independent initiative and judgment, develop new modules and applications, and maintain and enhance existing Capital Division applications in a Windows environment.
- Contribute to schedule and scoping discussions for the enhancement of existing software and the development of new in-house applications.
- Develop, enhance and expand the functionality of the division's existing applications.
- Perform application testing and validation.
- Create, develop and organize high-quality documentation/reports that implement best practices and procedures.
- Develop, code, deploy and monitor applications, scripts and databases using Visual Basic, ASP.Net, Microsoft Access and other utilities.
- Create and implement SQL stored procedures and develop SQL data views and schemas to validate, clean and deliver data.
- Support Capital staff with the division's project tracking software (Oracle Primavera Unifier) and other in-house developed applications and software.

QUALIFICATION REQUIREMENTS

*** This vacancy is only open to current permanent city employees serving in the Computer Associate (Software) civil service title, or on leave from the title, or those who passed the recent civil service exam (Exam No. 7002 or Exam No. 7507).**

This position is exempt from NYC residency requirements.

PREFERRED SKILLS/QUALIFICATIONS

1. Strong interpersonal, communication and organizational skills.
2. Expertise in Excel, Access or other similar numerical/data analysis programs.
3. Well-developed skills in associated database programming languages with an emphasis on MS SQL Server.
4. Comprehension of query plan, good query tuning skills and diverse experience improving query performance.
5. Good working knowledge of Object Oriented Programming concepts and basic data structures.
6. Knowledge of SQL queries and data views.
7. Familiarity of Visual Basic for Applications and Macros.
8. Ability to meet deadlines and identify and resolve issues with minimal direction.
