Think big: people, density, demographics
NYC WATER SYSTEM

The current system began operation in 1917, when Tunnel No. 1 first delivered water from upstate reservoirs. No. 2 was later added to serve Queens, Brooklyn and Staten Island. Now another leg of the long-planned No. 3, a critical backup to the aging No. 1, is entering service, a section that runs from West 79th Street to lower Manhattan.

1. **Stage 1** (activated)
   - Manhattan section (under construction)
   - QUEENS
   - BROOKLYN
   - STATEN ISLAND

2. **Stage 2**
   - Queens/Brooklyn section (under construction)

The Riverfront District is a zoning overlay intended to provide for the development of a character district wherein use and activity enhances the riverfront. Entertainment and commercial uses, residential uses, institutional and public uses, parking facilities, limited production and processing, and public services and utilities are allowed.
